

PRISMATIC LENS LED STRIP LIGHTS

UPGRADE TO LED WHILE MAINTAINING A BUDGET

IMPROVED PERFORMANCE AT A LOWER COST

SUNBLASTER™ LED STRIP LIGHTS are designed to maximize overall performance, economy and extend longevity, while providing the best possible lighting for all indoor growing applications. Our Self-Cooling Technology allowed our engineers to push SunBlaster™ LED Strip Lights to maximize their output without creating excess heat, or wasting resources running cooling fans.

NEW PRISMATIC LENS LED STRIP LIGHTS. These high efficiency LED lights produce up to 20% higher light output by using a more efficient LED array. The light passes through a prism that focusses the light into a 90 degree beam angle rather than the usual 120-degree output. This brings more light energy to the plant canopy and stimulates faster growth.

ITEM	DESCRIPTION	PACK SIZE
0900660	12" SBH Prismatic Lens LED 12W HO Strip Light 6400K	6/24
0900661	18" SBH Prismatic Lens LED 18W HO Strip Light 6400K	6/24
0900662	24" SBH Prismatic Lens LED 24W HO Strip Light 6400K	6/24
0900663	36" SBH Prismatic Lens LED 36W HO Strip Light 6400K	6/12
0900664	48" SBH Prismatic Lens LED 48W HO Strip Light 6400K	6/12

LED STRIP LIGHT KITS INCLUDE:

- LED Strip Light - 6400K
- 6' power cord with on/off switch
- 14" Link Cord
- Hanging and flat surface mounting clips
